

August, 2010

Hello!

My name is Bob Fielden. I'm a principal in RAFI: Planning, Architecture and Urban Design. I'm reaching out to you to support Ken Small for election to the Clark County School District, Board of Trustees.

Ken Small is a highly respected architect with a great deal of knowledge and experience that will help move the school board of trustees forward and upwards in its quality of service to Southern Nevada and its school children. While other board candidates talk about downsizing procedures and budget cuts, Ken is the only candidate I know who speaks about our children's needs first.

If elected to the board, Ken will bring about change for the betterment of learning for our children and grandchildren – or at least awaken the public to make us aware of what needs to be done. Ken has already proven that in publicizing the squandering of public funds on projects and on contractors, sub-contractors and others who have questionable business ties to the school district and its staff.

Ken is considered an outsider to the coziness the current board possesses amongst itself and staff and a number of local architects who have long held major contracts with the district I suspect are contributing heavily to campaign funds to continue the status quo.

Those of us who care more about our children and grandchildren's education than we do about the bureaucracy and politics within the district hopefully will support Ken Small. We need change –and we need it now!

Very Truly Yours

Dr. Robert Fielden, NCARB, FAIA
